SPECIFICATION DETAIL

Polymer (Non-Conductive)

SKIMMER LIDS AND ACCESS COVERS

good.

Full Polymer Kits
(No earthing required)

better.

Combination Kits
Robust Stainless-Steel + Polymer
(No earthing required)

best.

316 Stainless Steel Kits
20-Year warranty
(Earthed to pool structure)
Bespoke colours available

Stainless Steel / Polymer Combination

HIDE 'Combination Kits' utilise the proven strength and robust properties of the HIDE® stainless steel lid combined with a Polymer Edge Protector. The Polymer Edge Protector insulates the stainless steel and therefore does not require earthing, and the polymer colour blends in with surrounding tiles.

- ✓ Simple inlay fabrication with full stone coverage
- ✓ Discrete key access with no moving parts
- ✓ Inconspicuous locking system
- ✓ HIDE's proven keyway safety access
- ✓ Ash, Bone & Charcoal colour options to match tiles
- ✓ Polymer is available in 20mm & 30mm depths.
- ✓ 20-year warranty stainless / 5-year warranty polymer
- ✓ Conforms to Pool Safety Standards
- ✓ Cannot be lifted without the safety key

Stone on-site installation

316 Stainless Steel Lid / Polymer Edge Protector

Charcoal Polymer Edge Protector
20 & 30mm

Bone Polymer Edge Protector
20 & 30mm

Ash Polymer Edge Protector
20 & 30mm

Safety Key
Child resistant access

Non conductive polymer
No earthing required

Full Polymer Kits

HIDE 'Polymer Kits' consist of a polymer Lid and Edge Protector. Polymer Edge Protector will suit installations where bonding (earthing) is unachievable.

- ✓ All the benefits listed above
- ✓ Polymer products have a 5-year warranty
