

kerakoll

Aquastop Fix is a ready-to-use, eco-friendly sealant for bonding Aquastop tapes to membranes like Aquastop Green and Fabric. It delivers fast, durable watertight seals with high adhesion, chemical resistance, and elasticity, ideal for internal and external waterproofing, including balconies, terraces, and wet areas.

Aquastop Fix

Single-Component Waterproof Sealant

Key Features:

- Single-component & ready-to-use – no mixing required
- High elasticity – accommodates movement and maintains waterproofing integrity
- Rapid rain resistance – resistant to rainfall within 2 hours of application
- Multi-surface adhesion – bonds to ceramic tile, timber, metal, and plastics
- Green-tinted paste – aids visibility during application
- Resistant to alkalis and cleaning chemicals

VOC Ratings / Eco Notes

- Solvent 5 g/kg
- Low VOC

Certifications / Ratings

- GreenBuilding Rating 5
- EC1 Plus GEV Emission
- EN 14891

Available in 6kg buckets

Tensile Strength:	2.0 N/mm ² on concrete
Water Tightness:	1.5 bar
Elongation at Break:	93%
Coverage:	0.6/linear metre

Warning: Protect from frost and heat. Avoid use on highly deformable, damp, or reactive substrates. Dilution guidance varies by substrate.
