

kerakoll

Biogel Extreme is a high-performance, two-part gel adhesive for ceramic, porcelain, stone, and more. Made for extreme conditions, it offers strong adhesion, flexibility, and easy use on tough substrates, indoors or out.

Biogel Extreme

Highly Deformable and Workable, Hybridgel Adhesive

Key Features:

- Fluid and low viscosity for easy application
- Water-based with very low solvent content (5 g/kg)
- Extremely deformable (≤ 50 mm)
- Rapid bonding strength (≤ 7.5 N/mm²)
- High green strength and resistance to slipping
- Ready for grouting after approx. 4 hours
- Excellent adhesion without primer on most substrates
- Suitable for heated floors, over old tiles, or critical substrates

VOC Ratings / Eco Notes

- VOC Low Emission
- CO₂: 7.98 kg eq/m²

Certifications / Ratings

- EN 12004 R2
- EC1 Plus GEV Certified
- ISO/TS 14067 Compliant

Available in 10kg (8.6 + 1.4 kg Monopack) buckets

Warning: Professional use only. Follow system detailing and recommended installation guidelines.
