

kerakoll

Fugarok is a high-performance mineral grout for tiles, stone, and marble. Its semi-fluid formula allows full joint filling, extended workability, and easy cleanup, ideal for indoor and outdoor use in heavy-traffic and extreme conditions.

Fugarok

High-Performance Mineral Grout

Key Features:

- Semi-fluid texture for extended workability
- High filling power with no vertical slip
- Even, compact finish
- Excellent mechanical resistance
- Waterproof formulation, ideal for outdoor use
- Suitable for underfloor heating systems
- Colour-fast with low shrinkage and high abrasion resistance

VOC Ratings / Eco Notes

- VOC Low Emission
- CO₂ 250 g/kg
- Recyclable

Certifications / Ratings

- ISO 13007-3 CG2 WA
- EC1 Plus GEV Certified
- GreenBuilding Rating 3

Available in 20kg bags

Joint Width:	2 – 20 mm
Pot Life:	40 min
Compressive Strength:	30 N/mm ²
Abrasion Resistance:	500 mm ³

Warning: Professional use only. Follow recommended joint widths, mixing ratios, and curing times.
