

kerakoll

Fugabella Colour is a decorative resin-cement grout for tiles, mosaics, and stone. Its smooth, thixotropic gel consistency ensures easy application in all conditions.

Fugabella Colour

Decorative Resin-Cement Grout

Key Features:

- Achieves total colour uniformity with a fine-grain finish, thanks to the use of pure calcium carbonate and special pigments
- Offers water-repellence and very low water absorption, enhancing durability
- Forms a durable, abrasion-resistant finish ideal for high-traffic or demanding areas
- Mould and Bacteria Resistant

VOC Ratings / Eco Notes

- VOC Low Emission
- CO₂ 250 g/kg
- Recyclable

Certifications / Ratings

- ISO 13007-3 CG2 WA
- EC1 Plus GEV Certified
- ISO 846:2019

Available in 3kg bags in 50 colours

Joint Width:	0 – 20 mm
