keratrade

Certified, eco-friendly, organic, rapid drying water based polyurethane, membrane system for substrates in damp environments.

WPM Plus

Class III Waterproofing Membrane

Key Features:

- Commercial and domestic
- High elasticity
- UV Stable
- Trafficable
- Root inhibitors for planter boxes
- Rapid drying
- Recoat in 1–2 hours
- Superior adhesion to concrete, rendered masonry, wet area plasterboard, FC sheet & plywood
- Brush or roller applied
- Can be use in swimming pools

Uses: Internal / External

Coverage:	15m² (2 coats)
Between coats:	1–2 hrs
Before tiling:	6 hrs after 2nd coat
Flood Test:	24 Hrs
Work time:	30 min @25°C
Clean Up:	water
App Temp:	10–35°C
VOC Rating:	<1g/L (US RULE 1168)
Size:	19.5 KG

Certified Class III Membrane
AS/NZS 4858 / AS 4654.1
